EDUCATION

California State University, Fullerton — Fullerton, CA
Bachelor of Science in Computer Science || Dean's List 2020 – 2021 — Aug 2018 – May 2022
Relevant Coursework: OO Programming; Data Structures; Software Dev w/ Open Sources; Software Engineering

PROFESSIONAL EXPERIENCE

AMAZON — Irvine, CA
Fulfillment Center Associate — 02/2023 – Present

- Utilized technology to process and fulfill customer orders, with accuracy and speed, and enhance workflow to achieve operational greatness.
- Used advanced inventory management systems to help store a diverse range of products, ensuring their organization and preparedness for future deliveries.
- Encouraged collaborative relationships through communication with team members and supervisors
- Contributed to process improvement initiatives by providing feedback and implementing best practices.

EXTRACURRICULAR ACTIVITIES AND LEADERSHIP

CSUF Association of Computing Machinery (ACM) — Fullerton, CA
ACM-Dev Member — 03/2021 – 05/2021

- Engaged in a semester-long event where participants were organized into groups to encourage collaboration in the pursuit of a joint project.
- Collaborated Project: https://github.com/justdiam12/TuffyClock

TuffyHacks Hackathon — Fullerton, CA
Hackathon Participant — 03/2021

- Collaborated with two colleagues to develop an application for my school's hackathon event
- Assisted in ideation sessions and provided ongoing support in troubleshooting technical challenges during the coding process.

SKILLS

- **Programming Languages:** Bash, C++, JS, MATLAB, Python, R, SQL, Swift, X86 Assembly
- **Tools & Other Skills**: Agile, Apple Maps, Atom, CSS, Git, GitHub, HTML, Linux, MapKit, MySQL, Netlify, React, Scrum, SCSS, Trello, Ubuntu, Visual Studio

PROJECTS

Mobile Multi Map | Swift — https://github.com/CSUF-CPSC411-2022S/project-mobile-multi-map-mmm

- A user-friendly application that enables individuals to input multiple geographic locations, and afterwards uses an advanced API to generate an optimized route on an interactive map interface

Tic-Tac-Toe | Python — https://github.com/dkim286/cpsc362-proj

- An interactive tic-tac-toe application using a graphic user interface (GUI) to create seamless user engagement
- Offers engagement in local Player vs. Player (PvP) and Player vs. Computer (PvC) gameplay

CS BS | JS — https://elastic-liskov-447e80.netlify.app/

- An information-centric website allowing users to contribute and share their own resources pertaining to specific computer science topics, fostering a collaborative platform for knowledge spreading within the CSUF computer science community.

Weather React App | JS — https://zesty-malabi-109fc4.netlify.app/

- A website application that grants users the capability to retrieve real-time weather data for precise geographic locations, providing them with concurrent weather forecasting.
